

## CSS241 List of Questions

*Latex formatted questions may not properly render*

**Q1 Spies who gather information are known as —**

- espionage
- Agents
- surveillance
- computer

**Q2 What is the use of technologies to measure and study the physical and behavioral features of person(s) for the purpose of authentication, identification or screening**

- Biometric Surveillance
- systematic Surveillance
- data Surveillance
- computer surveillance

**Q3 The Nigeria Police is bedeviled in its operations with the problem of ineffective — analysis**

- discretion
- investigation
- intelligence
- vehicle

**Q4 ethnicity often creates the problem of identity and (enemy) — in the minds of people**

- hatred
- imagine
- doctrine
- imaging

**Q5 An analyst needs to demonstrate at least a minimum degree of — with some other team players in the field**

- distinction
- separation
- partnering
- joint

**Q6 Other sources of data collection are communication interception and —**

- communication injection
- searching
- relation
- satellite

**Q7 Hypotheses are statements, which are developed to — the relationship between two variables**

- predict
- suggest
- relate
- justify

**Q8 The most crucial stage of intelligence analysis is to —**

- test
- Evaluate Hypotheses
- analysis
- preview

**Q9 What is the general belief that two heads are better than one?**

- peer pressure
- pressure review
- Peer Review
- peer revisit

**Q10 In the United States, the — appears to be the major counter-intelligence agency in the country**

- Federal Bridger for Investigation (FBI)
- Federal Briggade for Investigation (FBI)
- Federal Bureaucratic for Investigation (FBI)
- Federal Bureau for Investigation (FBI)

**Q11 An independent security organization that has no police powers but is mandated by the law to have a good or collaborative working relation with the law enforcement agency is known as the —**

- Special marshal**
- Special Branch**
- special corp
- security

**Q12 Where the hostile agents are diplomats, the friendly nation or host country declares them — and facilitate their immediate repatriation**

- persona non grata**
- external non grata
- purified non grata
- terrific non grata

**Q13 Offensive — Operations include all activities that are targeted towards arresting the mischief of the enemy-parties**

- defective intelligence
- intelligence
- Counter intelligence**
- detection

**Q14 What underscores the relevance of information that is very crucial to the future operations of any organization or country?**

- Data security
- Operations Security**
- data Security
- security

**Q15 Communication Security (COMSEC) is germane to — intelligence**

- counter**
- similar
- the same
- opposite

**Q16 Data mining and — data analysis are inter-related as two of them play complementary roles in intelligence reporting as well as in security investigation**

- searching
- drilling
- mining
- automated**

**Q17 Data — is sometimes called data or knowledge discovery**

- searching
- mining**
- drilling
- mixing

**Q18 Data — is usually defined as searching, analyzing and sifting through large amounts of data to find relationships, patterns, or any significant statistical correlations**

- searching
- surfing
- mining**
- drilling

**Q19 A — query assists us in our analysis of data to have more information about the subject and gives us a clearer picture of what the subject is up to especially as it concerns his/her activities**

- subject data
- enquiry
- Data - based
- subject-based**

**Q20 Lack of — has really undermined the capacity of the police to perform its functions in Nigeria**

- technological innovation**
- man power
- innovation
- discretion

**Q21 what is the art and process of writing in secret character?**

- Cryptography
- Steganography
- Diversion safe
- Concealment devices

**Q22 we can adopt a — approach, using data mining to develop a model such that we search for anomalies or patterns that surround a behaviour or activity**

- up-up
- bottom-up
- top-up
- bottom-down

**Q23 We can use — approach in analysing our data by beginning the process of analysis with a hypothesis**

- up-down
- down-top
- top-down
- bottom-down

**Q24 Assets are also known as —**

- Agents
- Case officers
- Interrogation
- Black bag operation

**Q25 what usually involves the art of covertly or secretly collecting information through the use of human sources?**

- Espionage
- Black bag operations
- Interrogation
- Number stations

**Q26 if the result of an automated data analysis confirms a real crime suspect not culpable, it means the check is —**

- guilty
- not guilty
- entirely faulty
- wrong check

**Q27 The possibility of wrongfully labelling an innocent person as a crime suspect/criminal is due to mistakes in the result of our automated data analysis that is usually associated with collection of — or misapplication of data through imperfect search models**

- mistake of data
- correct data
- right data
- wrong data

**Q28 which of the following stands for scientific and technical intelligence**

- LASINT
- IMINT
- MASINT
- RADINT

**Q29 The following are Technical Intelligence collection disciplines except**

- SIGNIT
- IMINT
- HUMINT
- MASNIT

**Q30 SIGNIT stands for —**

- Signals Intelligence
- Signals National Intelligence
- Signal Intelligence
- None of the option

**Q31 Intelligence collection — is believed to be pertinent to a decision-marker**

- Procedure
- Procurement

- Gathering
- Seaving

**Q32 The sources of intelligence include all of the following except —**

- Members of the public
- Internet
- Government institutions
- Eating

**Q33 what is the full meaning of SWOT analysis?**

- Strenghts, weakness, opportunities and threats
- Structure, weakness, option and trust
- Strengths, weakness, opportunities and trust
- Structure, willingness, opportunities and transformation

**Q34 The traditional form of intelligence in which the intelligence activities take place outside the home country is known as —**

- Strategic intelligence
- Foreign intelligence
- National intelligence
- Criminal intelligence

**Q35 one out of the following is not a cataegory of intelligence**

- Counter intelligence
- Tactical intelligence
- Foreign intelligence
- Local intelligence

**Q36 what does CIA stand for**

- Central Intelligence Agency
- Center for Intelligence Analysis
- Central Institute of Action
- Center for Intelligence Agency

**Q37 The last step in this process involves transforming the data to make them useful. This step is usually known as —**

- data aggregation
- data generation
- data aggression
- data configuration

**Q38 mention one of the dimensions of intelligence**

- Intelligence as a means
- Intelligence as a process
- Intelligence as an education
- Intelligence reformation

**Q39 how many dimensions do Intelligence usually exhibit itself?**

- Two
- Three
- Five
- Seven

**Q40 Pattern-based queries involve conducting our investigation by moving from unknown to —**

- life
- discovered
- nown
- known

**Q41 Microkernel can be described as a computer kernel that — relevant mechanism.**

- disables
- disjoints
- contains
- enables

**Q42 Fantasy and — usually involve developing games from wars generated from works of fiction or (creative) imagination.**

- science fiction

- Health care
- war-games
- dreams

**Q43 Persons, things, events or ideas, which pose accidentally or deliberately some degree or danger to an asset are otherwise called**

- security
- security threats
- security demands
- security encounter

**Q44 Something which simulates a system or environment in order to predict actual behaviour is called**

- simulation
- collection
- spyware
- simulate

**Q45 War-games are actually those games that involve drawing— materials about wars that did not happen.**

- Simulating
- dreams
- imaginable
- Historical

**Q46 The jounces of intelligence are many to include the following except**

- Intelligence personnel
- Internet
- communication technology
- Clocking instrument

**Q47 War-game can be clasified as historical, hypothetical, —, or science fiction.**

- dream
- fantasy
- technology
- Clocking instrument

**Q48 The — methods of intelligence collection may include lockpicking, safecracking, finger-printing, electronic surveillance, mail manipulation, forgery among others.**

- Espionage
- Raid
- Interrogation
- Blake bag operations

**Q49 A secure — is dedicated for carrying out cryptographic operations**

- cryptoprocessor
- Cryptographic
- Computer Chips
- Flash drive

**Q50 Which tool is used to prevent any strange or unintended person from comprehending the content of a message**

- encryption
- expulsion
- conclusion
- emanate

**Q51 Idealism, Pluralism and Realism are some approaches of**

- Marxist ,
- environmental theory ,
- security management ,
- all of the above

**Q52 Security comprises of**

- human security
- environmental security
- spiritual security
- ,all of the above

**Q53 According to — simulation helps to reduce the situation of crisis in patients**

- Van Dirk (2002)
- Elderson John (2003)
- Alex Meliesh (2005)
- Eder-van Hook )2004)

**Q54 An earthquake has — points**

- one point
- three points
- two points
- 6 points

**Q55 The term terrorism was popularized by the — who ruled France.**

- Military
- Jacobins
- English
- Foreigners

**Q56 The act that involves coercing a person to part with either money, property or services to the offender is called —**

- Bribery
- coercion
- Robbery
- Extortion

**Q57 Insurgency involves an armed struggle or rebellion aimed at challenging the sovereign power of a constituted —.**

- kidnapping
- authority
- piracy
- terrorism

**Q58 Terrorism is a modern concept**

- TRUE
- FALSE
- NOT SURE
- all of the above

**Q59 The methods of — include suggestibility, Reid, Deception and torture**

- commission
- surveillance
- agent
- all of the above

**Q60 security — is also a very viable approach to computer and information security**

- architecture
- quality
- theorem
- module

**Q61 what can be used to guarantee privilege separation and compulsory access control?**

- capability and access control list
- capacity and access control list
- constituting list
- control list

**Q62 It is noteworthy to know that there are inherent dangers in keeping files on the web, if adequate — cannot be guaranteed**

- security
- protection
- guaranteed
- sorced

**Q63 Automated Theorem Proving is a — tool**

- authentication
- verification
- testing

proving

**Q64 What involves a technique in which we create password to restrict access to one??s computer**

- piracy
- Authentic
- Authentication
- Authenticity

**Q65 The aim of anti-virus is to — the computer**

- protect
- detect
- steal
- orient

**Q66 Anti-virus software is used to detect, prevent and destroy any —**

- fluid
- malware
- disease
- infection

**Q67 The first public virus — task was performed by Bernd Fix in 1987**

- removal
- disabling
- disabler
- destroyer

**Q68 Karl marx is one of the proponents of the youth — theory**

- barge
- bulge
- bling
- klint

**Q69 Processing and issuance of passport is now done —, and this appears to be faster and more convenient**

- in the air
- judiciously
- systemically
- electronically

**Q70 The — theory was popularized by Paul and Patrick Brantingham**

- environmentalist
- economist
- criminologist
- political scientist

**Q71 Files that fill up a whole building can be saved in a small and compact storage device like computer — or removable disks**

- soft disc
- trim disc
- hard disk
- stereo

**Q72 In recent time, — have replaced normal traditional paper system where information is stored in physical files**

- computs
- computers
- riddles
- information

**Q73 Simulation in — affords health care providers an opportunity to examine their capacity to respond to emergency situations**

- Health Care
- Medical
- Hospital
- All of the above

**Q74 According to — (2004) simulation helps to reduce the situation of crisis in patients**

- williams cole
- McKnight

- paul and patrick brantingham
- Eder-van Hook

**Q75** believes that the best way through which we can control crime is to examine the nature of the crime, the conditions that produces such crimes as well as the impact of the crimes

- realism
- Marxist theory
- Environmentalist theory
- Physical theory

**Q76** Computer security is defined as all aspects of security, which involves protecting our computing systems from — attacks and intrusion

- malicious
- vicious
- virus
- syndrome

**Q77** Which of the following is not a solution to domestic violence?

- Articulation of combined action between law enforcement agencies ,
- Adequate medical intervention ,
- Adequate finance to the couple of violence ,
- Provision of standard operations process for arrest of culprits

**Q78** what is the theoretical approach that emerged in the 1920s, as an initiative to guarantee world peace and security

- idealism
- realism
- theorem
- renaissance

**Q79** One of these is not an element of compensation and rewards.

- Salary and wages
- incentives ,
- Contractual agreement
- Benefits

**Q80** In security job, the following are the criteria used in recruitment of personnel except one

- Physical fitness
- Physical combatants ,
- Mental stability and alertness
- Educational Qualification

**Q81** Microkernel can be described as a computer kernel that — relevant mechanism.

- disables
- disjoins
- contains
- enables

**Q82** Fantasy and — usually involve developing games from wars generated from works of fiction or (creative) imagination.

- science fiction
- Health care
- war-games
- dreams

**Q83** Persons, things, events or ideas, which pose accidentally or deliberately some degree or danger to an asset are otherwise called —

- security
- security threats
- security demands
- security encounter

**Q84** Something which simulates a system or environment in order to predict actual behaviour is called —

- simulation
- collection
- spyware
- simulate

**Q85 War-games are actually those games that involve drawing—— materials about wars that did not happen.**

- Simulating
- dreams
- imaginable
- Historical

**Q86 The jounces of intelligence are many to include the following except ——**

- Intelligence personnel
- Internet
- communication technology
- Clocking instrument

**Q87 War-game can be clasified as historical, hypothetical, ——, or science fiction.**

- dream
- fantasy
- technology
- Clocking instrument

**Q88 The —— methods of intelligence collection may include lockpicking, safecracking, finger-printing, electronic surveillance, mail manipulation, forgery among others.**

- Espionage
- Raid
- Interrogation
- Blake bag operations

**Q89 A secure —— is dedicated for carrying out cryptographic operations**

- cryptoprocessor
- Cryptographic
- Computer Chips
- Flash drive

**Q90 Which tool is used to prevent any strange or unintended person from comprehending the content of a message**

- encryption
- expulsion
- conclusion
- emanate

**Q91 Idealism, Pluralism and Realism are some approaches of ——**

- Marxist ,
- environmental theory ,
- security management ,
- all of the above

**Q92 Security comprises of ——?**

- human security
- environmental security
- spiritual security
- ,all of the above

**Q93 According to —— simulation helps to reduce the situation of crisis in patients**

- Van Dirk (2002)
- Elderson John (2003)
- Alex Meliesh (2005)
- Eder-van Hook )2004)

**Q94 An earthquake has —— points**

- one point
- three points
- two points
- 6 points

**Q95 The term terrorism was popularized by the —— who ruled France.**

- Military
- Jacobins

- English
- Foreigners

**Q96 The act that involves coercing a person to part with either money, property or services to the offender is called —**

- Bribery
- coercion
- Robbery
- Extortion

**Q97 Insurgency involves an armed struggle or rebellion aimed at challenging the sovereign power of a constituted —.**

- kidnapping
- authority
- piracy
- terrorism

**Q98 Terrorism is a modern concept**

- TRUE
- FALSE
- NOT SURE
- all of the above

**Q99 The methods of — include suggestibility, Reid, Deception and torture**

- commission
- surveillance
- agent
- all of the above

**Q100 security — is also a very viable approach to computer and information security**

- architecture
- quality
- theorem
- module

**Q101 what can be used to guarantee privilege separation and compulsory access control?**

- capability and access control list
- capacity and access control list
- constituting list
- control list

**Q102 It is noteworthy to know that there are inherent dangers in keeping files on the web, if adequate — cannot be guaranteed**

- security
- protection
- guaranteed
- sorted

**Q103 Automated Theorem Proving is a — tool**

- authentication
- verification
- testing
- proving

**Q104 What involves a technique in which we create password to restrict access to one's computer**

- piracy
- Authentic
- Authentication
- Authenticity

**Q105 The aim of anti-virus is to — the computer**

- protect
- detect
- steal
- orient

**Q106 Anti-virus software is used to detect, prevent and destroy any —**

- fluid

- malware
- disease
- infection

**Q107 The first public virus — task was performed by Bernd Fix in 1987**

- removal
- disabling
- disabler
- destroyer

**Q108 Karl Marx is one of the proponents of the youth — theory**

- barge
- bulge
- bling
- klint

**Q109 Processing and issuance of passport is now done —, and this appears to be faster and more convenient**

- in the air
- judiciously
- systemically
- electronically

**Q110 The — theory was popularized by Paul and Patrick Brantingham**

- environmentalist
- economist
- criminologist
- political scientist

**Q111 Files that fill up a whole building can be saved in a small and compact storage device like computer — or removable disks**

- soft disc
- trim disc
- hard disk
- stereo

**Q112 In recent time, — have replaced normal traditional paper system where information is stored in physical files**

- computes
- computers
- riddles
- information

**Q113 Simulation in — affords health care providers an opportunity to examine their capacity to respond to emergency situations**

- Health Care
- Medical
- Hospital
- All of the above

**Q114 According to — (2004) simulation helps to reduce the situation of crisis in patients**

- Williams Cole
- McKnight
- Paul and Patrick Brantingham
- Eder-van Hook

**Q115 believes that the best way through which we can control crime is to examine the nature of the crime, the conditions that produces such crimes as well as the impact of the crimes**

- realism
- Marxist theory
- Environmentalist theory
- Physical theory

**Q116 Computer security is defined as all aspects of security, which involves protecting our computing systems from — attacks and intrusion**

- malicious
- vicious
- virus
- syndrome

**Q117 Which of the following is not a solution to domestic violence?**

- Articulation of combined action between law enforcement agencies ,
- Adequate medical intervention ,
- Adequate finance to the couple of violence ,
- Provision of standard operations process for arrest of culprits

**Q118 what is the theoretical approach that emerged in the 1920s, as an initiative to guarantee world peace and security**

- idealism
- realism
- theorem
- renaissance

**Q119 One of these is not an element of compensation and rewards.**

- Salary and wages
- incentives ,
- Contractual agreement
- Benefits

**Q120 In security job, the following are the criteria used in recruitment of personnel except one**

- Physical fitness
- Physical combatants ,
- Mental stability and alertness
- Educational Qualification
